PROFESSIONAL SUMMARY

Aspiring Machine Learning and Full-Stack Developer with hands-on experience designing, training, and deploying AI-powered applications using Python, Scikit-learn, TensorFlow, FastAPI, Flask, React.js, and MongoDB. Experienced in building end-to-end machine learning pipelines, deploying models, developing REST APIs, and delivering cloud-based applications. Holds a 9.2 GPA with 4 deployed applications and active open-source contributions.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript
Frontend: HTML, CSS, React.js, Bootstrap
Backend: REST APIs, FastAPI, Flask, Node.js
Databases: MySQL, MongoDB
AI and ML: Machine Learning, Classification, Regression, Scikit-learn, TensorFlow, Hugging Face, RAG Pipelines
Tools/Cloud: GitHub, VS Code, Vercel, Render, Scalable Architecture, API Design, Data Structures and Algorithms

EDUCATION

Mohan Babu University

2023 - 2027

B.Tech in Computer Science and Engineering (GPA: 9.2/10) | Tirupati, Andhra Pradesh

EXPERIENCE

Machine Learning Intern | InternPe | Remote

Jun 2026 - Jul 2026

- Developed 4 production-grade Machine Learning solutions including IPL Predictor, Diabetes Prediction, Car Price Regression, and Breast Cancer Classifier.
- Improved model accuracy by 20% through Exploratory Data Analysis and feature engineering on 500,000+ data records.
- Achieved over 90% accuracy across 4 distinct Machine Learning models, demonstrating robust predictive capabilities.

AI and ML Intern | Infosys Springboard | Virtual

Jun 2026 - Aug 2026

- Engineered, trained, and cross-validated 12+ custom Computer Vision and NLP model architectures using Python, Scikit-learn, and Hugging Face pipelines to achieve a 100% completion rate.
- Boosted evaluation efficiency by completing all 5 primary structured training tracks ahead of schedule, resulting in an official Certificate of Achievement.

PROJECTS

CodeQuest: Full-Stack Competitive Programming Platform

Oct 2025

Technologies: React 18, Tailwind CSS, Node.js, MongoDB, JWT, Bcrypt, Chart.js, Render

- Engineered a coding platform with 42+ DSA problems, contests, and structured learning modules to facilitate skill advancement.
- Constructed interactive dashboards for XP tracking, rankings, submissions, and interview preparation progress, enhancing user engagement.
- Implemented secure JWT authentication and launched the application using Render and MongoDB Atlas, ensuring scalable performance.

MindGuard AI: Cognitive Load and Mental Fatigue Detection

Apr 2026

Technologies: React.js, Tailwind CSS, FastAPI, Hugging Face Spaces, Vercel

- Created an AI-based attention monitoring system using advanced gaze and distraction detection algorithms to support user wellbeing.
- Formulated focus scoring, burnout prediction, and productivity tracking features to provide actionable insights into cognitive workload.
- Hosted a privacy-focused solution using FastAPI, React.js, Vercel, and Hugging Face, delivering a seamless experience for monitoring mental fatigue.

DocuMind AI: Intelligent RAG Chatbot for PDF Q&A

Apr 2026

Technologies: FastAPI, FAISS, Hugging Face, Groq LLAMA 3.1, Streamlit

- Designed a sophisticated PDF question-answering system using LangChain, FAISS, and LLAMA 3.1 to enable efficient information retrieval.
- Implemented semantic search and retrieval techniques for context-aware document interactions, drastically reducing time spent on manual document analysis.
- Published the application using FastAPI, Streamlit, and Hugging Face Spaces, offering an accessible interface for automated knowledge extraction.

ACHIEVEMENTS

- Ranked 14,346 among 356,000+ participants in the Naukri Campus All India Aptitude Test (NCAT).
- Received an Appreciation Certificate at the IIIT Sri City 60-hour Agentic AI Hackathon (100+ participants).
- Active GitHub contributor maintaining multiple open-source repositories with 100+ commits at github.com/fabpot-glitch.
- Received an Appreciation Certificate for exceptional mentorship; scored 96% in the Intermediate board examinations.

CERTIFICATIONS

- Internshala: Certificate of Selection - Full Stack Development Internship at Unessa Foundation.
- EY Forage: EY Technology Risk Virtual Job Simulation - Certificate of Completion.
- Anthropic Certifications: Introduction to Agent Skills, Building with Claude API, AI Fluency Framework and Foundations, and AI Fluency for Nonprofits and Educators.
- Infosys Springboard - AI Primer: Certificate of Achievement - Artificial Intelligence Primer Certification.
